- **Methodologies:** Agile, Scrum

CERTIFICATIONS

- **Udemy:** The Web Developer Bootcamp 2023
- **Microsoft:** Microsoft Azure Fundamentals, Microsoft Power Platform Fundamentals, Microsoft Dynamics 365 Fundamentals (CRM)

PROJECT

Movie Mario

- A responsive web Application developed using React + firebase. The core idea of this app is to search through a vast collection of movies.
- The React Content API is utilized for state management, and several third-party libraries were incorporated for convenience.
- The Movie API (TMDB) is the heart of this app, as it provides all the necessary movie related data and methods.
- Firebase is integrated to enable user authentication and is also used to store the Meta data of the movies and other user related data.
